Extracurriculars: *Product Designer & Software Engineer @ Hack4Impact, President & Design Lead @ UMD Indian Students Association, Business Analyst @ Consult Your Community, Alpha Omega Epsilon Engineering Sorority*

Certificates: Google UX Design, Design Psychology: Master the Art and Science of UX Design

PRODUCT DESIGN EXPERIENCE

Hungie

Product Designer Freelance

June 2026 — July 2026

College Park, MD

- Designed the MVP for an AI-powered pantry-to-recipe startup, working with founders to move from a commoditized recommendation tool to a retention-driven habit app — successful alpha launch to 100 users with 60% week-one retention.
- Rebuilt the AI around human-AI interaction research (algorithm aversion, automation bias, uniqueness neglect) — shipping explainable recommendations, adaptive personalization, and user correction loops so users trusted it enough to cook from it.
- Designed gamified engagement loops and community layer using behavioral and design psychology — reinforcing habit formation and creating a playful, low-pressure experience in eating well, lifting users community engagement score by 80%.

National School Climate Center

Product Designer

January 2026 — May 2026

Remote

- Directed design quality and product vision for a school climate assessment platform serving 3,000+ schools – leading a comprehensive overhaul of 50+ screens and establishing team's design standards and review process prior to client handoff.
- Led structured design critiques and mentored junior designers on UI/UX principles – visual hierarchy, layout consistency, and flow consolidation – serving as the team's quality gate to ensure cohesive, developer-ready screens.
- Revised admin, student, and data analytics dashboards – restructuring page architecture and introducing AI-assisted visualizations and word clouds – reducing survey administration time by 50% and data analysis time by 40%.

AppleNJ

Product Design Intern

August 2025 — September 2025

Princeton, NJ

- Led complete transformation of a failing business division, performing competitive analysis and redefining market positioning to develop new brand identity and GTM strategy – driving 250% increase in new consultations within first quarter post-launch.
- Identified a critical audience mismatch – developed 3 user archetypes via customer segmentation research, identified key user pain points and needs to replace non-specific consumer targeting with distinct brand strategy – presented to CEO and CFO.
- Conducted capability gap audit to invent product & service portfolio, build 17 strategic bundles, and assemble pricing strategy.
- Delivered complete website redesign: 30+ wireframes with new company name, logo, design system, information architecture.

Princeton IT Services

Product Design Intern

June 2025 — August 2025

Princeton, NJ

- Diagnosed and redesigned the hero section of a 70,000-visitor enterprise B2B homepage generating near-zero conversions – establishing brand clarity and driving a 340% increase in click-through to five underperforming business divisions.
- Conducted 50+ user interviews, heatmap analysis, session recording analysis, and 10-second comprehension testing across four iterative design cycles – raising user identification of the platform's value proposition and service offerings from 25% to 80%.
- Developed and deployed the final A/B test variant to live production traffic, presenting results directly to C-suite leadership – driving a 40% reduction in bounce rate, 180% lift in CTA conversions, and a 12,000+ increase in weekly page views.

TOOLS & TECHNICAL SKILLS

Design Tools: Figma, Adobe Creative Suite, Illustrator, Sketch, Canva

AI Design Tools: Figma Make, Google Stitch, Claude Code, Adobe Firefly, Uizard

Design Skills: User-centered Design, User Research, Market Research, Interaction Design, Cross-functional Team Management

Technical: HTML, CSS, Tailwind, JavaScript, React.js, Node, Express.js, Flask, Django

Additional Experiences: *Software Engineer Intern @ The Breastfeeding Center of Greater Washington (January - December 2025), UI/UX Designer @ Children's Cancer Foundation (August - December 2024), Founder & Business Owner @ Etsy (December 2020 - May 2022)*
